

Kids First Co-Parenting Program

Kids First focuses on how effective parenting during this time of transition can lessen the negative impact of divorce and parental separation on children. **Kids First** works to strengthen families through education and advocacy.

Kids First was formed to improve the quality of the parental relationship by reducing conflict and impress on parents the critical role they play in their child's ability to adjust to the changes in their lives. The emphasis is on what parents can do proactively to circumvent negative consequences for their children. Evaluation results have been overwhelmingly positive.
